C-Track continues to be a leading case management solution that solves the complexity of appellate court case flows and allows courts to manage all aspects of their case processing lifecycle. C-Track is the most configurable, user-friendly, off-the-shelf case management solution. In an environment of changing technology, shrinking budgets and increased public scrutiny, the most effective CMS will improve the Court's workflows and reduce time spent on repetitive tasks.

Vendors:

THEAWARDGROUP

The AWARD Group produces and fulfills certificate needs with minimal cost and maximum ease. Our capabilities include printing, personalizing and shipping for decorative scrolls, wall licenses, and legal certifications. Our iCertification program allows attorneys to confirm their certificate is correct prior to printing so there is little room for error. The program also allows frames in various price ranges so attorneys can receive their certificate framed and ready to hang. The revenue we derive from framing allows us to offer your court special pricing on certificate and distribution needs. Getting your certificates on more walls results in increased exposure for your state and court.

ⒸBISDIGITAL

BIS Digital is a technology company which provides integrated communications and multi-media recording solutions. We “capture the record” with complete audio and video digital recording and presentation systems customized to meet client needs. Our technology helps administrators manage courtroom and judicial proceedings as well as meetings held by city, county, state and federal government. BIS Digital systems also play an integral role in law enforcement, public safety and emergency management operations, including 911.

We design systems with fully integrated audio-visual (AV) capabilities for optimal workflow and efficiency. Founded in 1982, BIS Digital has the knowledge and experience gained through our large customer base to build the perfect AV system from concept to completion for any environment. We handle everything from

planning and design to installation and service. We even purchase all the hardware and equipment. Moreover, we'll make sure staff is properly trained on using the system to master its operation.

Clear|brief

Clearbrief is proudly partnering with courts and government agencies around the country to help judges, court staff, and other stakeholders save resources and give them more time to do what they love. Based right in Microsoft Word, Clearbrief can save judges and court system users hours everyday on common judicial system and case review tasks while giving judges quicker insight into the facts in their cases. Clearbrief's "Add Fact Cite" button lets a writer select any point in their draft and instantly see suggestions from the record, transcripts, or other uploaded material relevant to that point, helping colleagues easily view the factual support for draft opinions. Our AI flags where parties are misrepresenting the facts and the law, lets readers seamlessly view source documents as you read, and generates secure, cloud-based shareable versions of draft opinions, with embedded links to every cited source.

www.clearbrief.com

Decisia is an online solution allowing a court to create its own internal database of case law, share it and search it. The past, current and future wealth of knowledge

that resides in the judges' decisions is protected and can be searched instantaneously thanks to a unique refined, filtered and smart engine. Selected opinions can be published on the court's website to help pro se and witnesses conduct basic legal research and prepare their case.

www.lexum.com/decisia

ImageSoft enables Appellate Courts to achieve a fully electronic workflow by integrating its eFiling, workflow, electronic appeals or eBench solutions with your CMS. Our solutions are designed to integrate with any case management system and to send or receive digital files any state agency.

- TrueFiling for eFiling
- OnBase by Hyland for Electronic Workflow for Clerk Review
- CaseShare for Electronic Appeal Records
- aiSmartBench for judges

The National Center for State Courts is an independent, nonprofit improvement organization founded at the urging of Chief Justice of the Supreme Court Warren E. Burger. He envisioned NCSC as a clearinghouse for research information and comparative data to support improvement in judicial administration in state courts.

All of NCSC's services—research, information services, education, consulting—are focused on helping courts plan, make decisions, and implement improvements that save time and money, while ensuring judicial administration that supports fair and impartial decision-making.
